Boethius John Marenbon, 2003 This accessible introduction to the thought of Boethius offers a survey of the philosopher's life and work, going on to explicate his theological method. It devotes separate chapters to his various arguments and traces his influence on the work of such thinkers as Aquinas and Duns Scotus.

Life as a Hunt Stuart Marks, 2016-09-01 The extensive wilderness of Zambia's central Luangwa Valley is the homeland of the Valley Bisa whose cultural practices have enriched this environment for centuries. Beginning with the intrusions of warlords and later British colonials, successive generations have experienced the callousness and challenges of colonialism. Their homeland, a slender corridor surrounded by three national parks and an escarpment, is a microcosm of the political, economic and cultural battlefields surrounding most African protected areas today. The story of the Valley Bisa diverges from the myths that conservationists, administrators, and philanthropists, tell about Africa's environmental and wildlife crises.

Alfred C. Kinsey: A Life James H. Jones, 2004-11-17 The hidden life of Alfred C. Kinsey, the principal architect of the sexual revolution. In this brilliant, groundbreaking biography, twenty years in the making, James H. Jones presents a moving and even shocking portrait of the man who pierced the veil of reticence surrounding human sexuality. Jones shows that the public image Alfred Kinsey cultivated of disinterested biologist was in fact a carefully crafted public persona. By any measure he was an extraordinary man—and a man with secrets. Drawing upon never before disclosed facts about Kinsey's childhood, Jones traces the roots of Kinsey's scholarly interest in human sexuality to his tortured upbringing. Between the sexual tensions of the culture and Kinsey's devoutly religious family, Jones depicts Kinsey emerging from childhood with psychological trauma but determined to rescue humanity from the emotional and sexual repression he had suffered. New

facts about his marriage, family life, and relationships with students and colleagues enrich this portrait of the complicated, troubled man who transformed the state of public discourse on human sexuality.

Knowledge-Based and Intelligent Information and Engineering Systems Rossitza Setchi, Ivan Jordanov, 2010-09-02 The four-volume set LNAI 6276--6279 constitutes the refereed proceedings of the 14th International Conference on Knowledge-Based Intelligent Information and Engineering Systems, KES 2010, held in Cardiff, UK, in September 2010. The 272 revised papers presented were carefully reviewed and selected from 360 submissions. They present the results of high-quality research on a broad range of intelligent systems topics.

The Taoist Canon Kristofer Schipper, Franciscus Verellen, 2019-09-01 Taoism remains the only major religion whose canonical texts have not been systematically arranged and made available for study. This long-awaited work, a milestone in Chinese studies, catalogs and describes all existing texts within the Taoist canon. The result will not only make the entire range of existing Taoist texts accessible to scholars of religion, it will open up a crucial resource in the study of the history of China. The vast literature of the Taoist canon, or Daozang, survives in a Ming Dynasty edition of some fifteen hundred different texts. Compiled under imperial auspices and completed in 1445—with a supplement added in 1607—many of the books in the Daozang concern the history, organization, and liturgy of China's indigenous religion. A large number of works deal with medicine, alchemy, and divination. If scholars have long neglected this unique storehouse of China's religious traditions, it is largely because it was so difficult to find one's way within it. Not only was the rationale of its medieval classification system inoperable for the many new texts that later entered the Daozang, but the system itself was no longer understood by the Ming editors; hence the haphazard arrangement of the canon as it has come down to us. This new work sets out the contents of the Daozang chronologically, allowing the reader to follow the long evolution of Taoist literature. Lavishly illustrated, the first volume ranges from antiquity through the Middle Ages, while the second spans the modern period. Within this frame, texts are grouped by theme and subject. Each one is the subject of a historical abstract that identifies the text's contents, date of origin, and author. Throughout the first two volumes, introductions outline the evolution of Taoism and its spiritual heritage. A third volume offering biographical sketches of frequently mentioned Taoists, multiple indexes, and an extensive bibliography provides critical tools for navigating this guide to one of the fundamental aspects of Chinese culture.

Avicenna's Al-Shifa' Sari Nusseibeh, 2018-04-09 This book deals with the philosophy of Ibn Sina - Avicenna as he was known in the Latin West- a Persian Muslim who lived in the eleventh century, considered one of the most important figures in the history of philosophy. Although much has been written about Avicenna, and especially about his major philosophical work, *Al-Shifa'*, this book presents the rationalist Avicenna in an entirely new light, showing him to have presented a theory where our claims of knowledge about the world are in effect just that, claims, and must therefore be underwritten by our

faith in God. His project enlists arguments in psychology as well as in language and logic. In a sense, the ceiling he puts on the reach of reason can be compared with later rationalists in the Western tradition, from Descartes to Kant -though, unlike Descartes, he does not deem it necessary to reconstruct his theory of knowledge via a proof of the existence of God. Indeed, Avicenna's theory presents the concept of God as being necessarily presupposed by our theory of knowledge, and God as the Necessary Being who is presupposed by an existing world where nothing of itself is what it is by an intrinsic nature, and must therefore be as it is due to an external cause. The detailed and original analysis of Avicenna's work here is presented as what he considered to be his own, or 'oriental' philosophy. Presenting an innovative interpretation of Avicenna's thought, this book will appeal to scholars working on classical Islamic philosophy, kalām and the History of Logic.

Internationalization and Domestic Politics Robert O. Keohane,Helen V. Milner,1996-04-26 This volume focuses on the effects of the internationalization of national markets on domestic politics.

Public Purpose in International Law Pedro J. Martinez-Fraga,C. Ryan Reetz,2015-02-19 This text explores how the public purpose doctrine reconciles the often conflicting, but equally binding, obligations that states have to engage in regulatory sovereignty while honoring host-state obligations to protect foreign investment. The work examines the multiple permutations and iterations of the public purpose doctrine and concludes that this principle needs to be reconceptualized to meet the imperatives of economic globalization and of a new paradigm of sovereignty that is based on the interdependence, and not independence, of states. It contends that the historical expression of the public purpose doctrine in customary and conventional international law is fraught with fundamental flaws that, if not corrected, will give rise to disparities in the relationship between investors and states, asymmetries with respect to industrialized nations and developing states, and, ultimately, process legitimacy concerns.

The Royal Navy and Nazi Germany, 1933-39 J. Maiolo,1998-06-22 This book focuses on the Royal Navy's response to the rise of the German navy under Hitler within the broad context of the ongoing debate about Britain's policy of appeasement. It combines a narrative of diplomatic events and Whitehall policy-making with the thematic analysis of naval intelligence and war planning. Drawing on the wide range of sources, the author argues that the Admiralty's enthusiasm for naval armaments diplomacy with Nazi Germany was far more rational and more complex than previous studies would suggest.

Control of immigration Great Britain: Home Office, 2007-08-21 The statistics presented, in brief, show that: International arrivals outside the Common Travel Area increased 3%; work permit holders admitted to UK increased 6%; Non-EEA student to the UK increased 9%; refusals of entry at port increased 6%; asylum applications decreased 8% including and excluding dependents with the highest number of applicants from Eritrea, Afghanistan, Iran, China and Somalia; decisions on asylum applications decreased 24%; 26% of applications resulted in grants of asylum, humanitarian protection/discretionary leave or in allowed appeals. There was a 2% increase in after entry decisions; grants of settlement fell by 25% and total number of persons removed from the UK increased 10%

Cleaning with Solvents: Science and Technology John Durkee, 2013-11-29 High-precision cleaning is required across a wide range of sectors, including aerospace, defense, medical device manufacturing, pharmaceutical processing, semiconductor/electronics, etc. Cleaning parts and surfaces with solvents is simple, effective and low-cost. Although health and safety and environmental concerns come into play with the use of solvents, this book explores how safe and compliant solvent-based cleaning techniques can be implemented. A key to this is the selection of the right solvent. The author also examines a range of newer green solvent cleaning options. This book supplies scientific fundamentals and practical guidance supported by real-world examples. Durkee explains the three principal methods of solvent selection: matching of solubility parameters, reduction of potential for smog formation, and matching of physical properties. He also provides guidance on the safe use of aerosols, wipe-cleaning techniques, solvent stabilization, economics, and many other topics. A compendium of blend rules is included, covering the physical, chemical, and environmental properties of solvents. - Three methods explained in detail for substitution of suitable solvents for those unsuitable for any reason: toxic solvents don't have to be tolerated; this volume explains how to do better - Enables users to make informed judgments about their selection of cleaning solvents for specific applications, including solvent replacement decisions - Explains how to plan and implement solvent cleaning systems that are effective, economical and compliant with regulations

Persuading the Cretans Aldred A. Genade, 2011-03-23 The Letter to Titus is often branded as incoherent, its salutation inchoate. Such premature conclusions are directly related to the authenticity debate that has marred analyses of the so-called Pastoral Epistles. From the corridors of academia echoes the cry to study the letters individually and independently of the authorship issue. This book does exactly that. It lays bare intricate and novel persuasive strategies, strategies that belie the charge of incoherency. In fact there is not one, but three ways to describe the structure of this masterfully composed letter. In *Persuading the Cretans*, Aldred Genade does this utilizing a technique known as text-generated persuasion analysis. Careful thought has gone into the composition of the letter to communicate timeless truths relevant for generations of

Christians. This is first-century outcomes-based communication at its best and communicators, preachers, and scholars stand to benefit from the lessons in communication the author of Titus can teach us.
